

CLEANING EXCELLENCE

by Asepsis

The future of data-driven facility management is here

Cleaning just got **clever.**

The future of data-driven facility management is here

CLEARLY CLEANER

A network of Bluetooth-enabled beacons, android tablets and an intuitive software interface assures a more exacting clean and backs it up with data insights for easy management reporting.

REAL-TIME STATUS CHECKS

Work smarter, not harder. Balance staff workloads for improved teamwork, better incident response times and an efficient cleaning regime based on KPIs.

COMPLIANCE EDGE

Deliver a winning tender bid, achieve greater quality assurance and boost stakeholder satisfaction with a cleaning regime that's clever too.

Your trusted partner

Asepsis brings innovation and a holistic vision for facilities management across health and aged care, residential settings, sporting arenas and shopping centres. Its integrated Software-as-a-Service solution transforms compliance reporting in aged care living environments, lifts assurance levels and customer satisfaction.

Make verification and reporting on cleaning KPIs a breeze for your tender fulfilment.

Visit www.asepsis.com.au for details.

What the **supervisor** see's on their screen

Clean you can see, backed by real-time reporting

NO DETAIL TOO SMALL, NO TASK TOO BIG

A NEW ERA IN FACILITY MANAGEMENT

Cleaning Excellence is Software-as-a-Service and another integrated component of the Asepsis facility management solution.

The system includes the web-based dashboard and reporting system, Android tablets, Bluetooth-enabled beacons and access to the Cleaning Excellence app.

The app features training videos, cleaning procedures, Material Safety Data Sheets, chemical risk information, manual handling and a consumables ordering interface via a dedicated staff log-in.

Future app developments will promote seamless management of cleaning audit resolutions as cleaning staff identify and complete any corrective actions required.

Wire your facility for a next-generation clean

Introducing Cleaning Excellence by Asepsis: a seamless facility management solution for unprecedented visibility and assurance for clients and site supervisors.

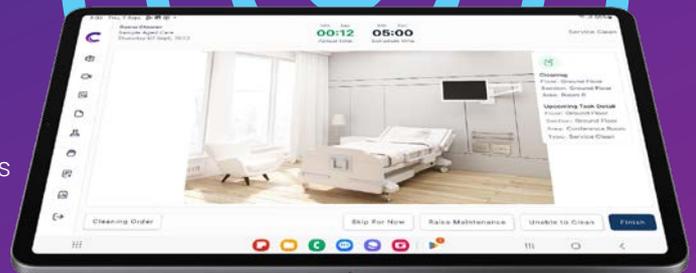

Instant, **real-time insights 24/7** into your facility's cleaning regime: track activity room-by-room for powerful KPI management and reporting.

More control over cleaning schedules for **improved infection control** and time management as well as a **faster emergency response** to spills or hazards.

Skip the staff loudspeaker announcements with **direct messaging capability** and boost stakeholder satisfaction and manage complaints with **enhanced, data-driven reporting**.

What the **cleaner** see's on their screen

Cleaning just got **clever.**

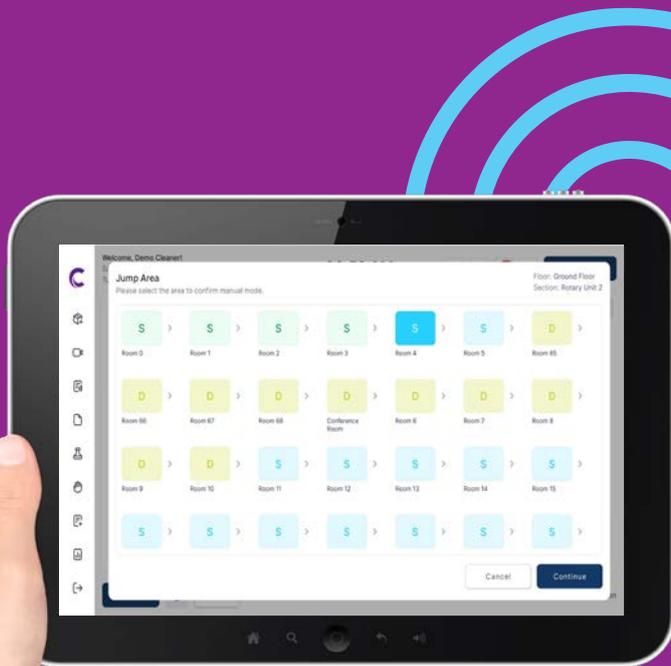

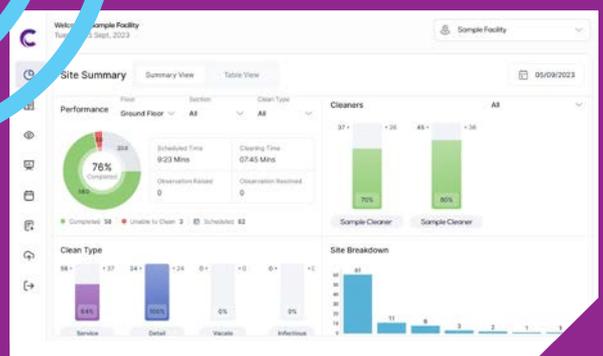

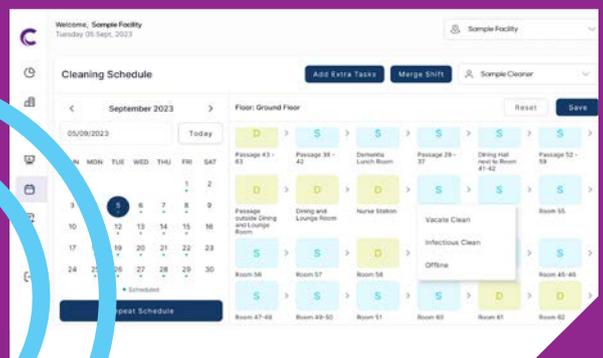

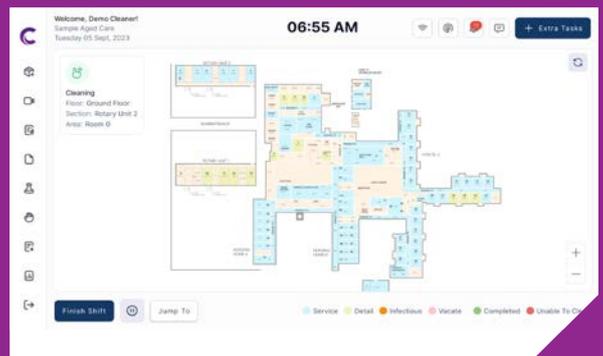

A clearer view

Facility management like never before. Find powerful new insights and moment-by-moment control.

Boost efficiency as cleaning staff check off assigned tasks one by one, with real-time issue reporting and resolution built in.

Keep tabs on scheduled and periodic cleans anywhere, anytime via a dashboard view including observations and maintenance notes.

What the **supervisor** sees on their screen

Make it a clean sweep

Future-proof your facility with automated human resource functions, payroll, staff training and maintenance scheduling, plus unlock savings and productivity gains in your laundry processes with Asepsis Loop, a valuable add-on component to Cleaning Excellence.

Find out how with Asepsis Enterprise Resource Planning (ERP), our complete facility management solution.
