

Spectralink Varsity Administrator Training

For professionals responsible for managing, configuring, administering, and monitoring Spectralink Varsity

Benefits of Spectralink Workshops with Wavelink

Certified trainers with in-depth product knowledge and project deployment experience

Course catered for Spectralink Varsity super users and administrators

Spectralink Varsity training lab based on a practical deployment

Why Attend a Spectralink Varsity Training with Wavelink?

Spectralink Varsity Training course is designed for super users and administrators of the fleet of handset, regardless if you have had previous hands-on experience or not.

This will cover most of the issues that you will encounter during Spectralink Varsity management and common troubleshooting tips, with hands-on deployment scenarios.

Best practise tips are provided to optimise the management of the Spectralink handset.

This training is the first gateway to achieving the Spectralink Varsity Family Technical Training course and exam.

Daily Objectives
